

MNZ AGM Trail Ride forum 2009

The first step towards the formation of guidelines and rules applicable to Trail Rides was undertaken at this years AGM held in May at Wellington.

The interest from members and club representatives was high. The ideas and suggestions are currently being put together by the Commissioner, in a format that will be sent to clubs and interested parties for further consultation and input next month.

Trail Ride Commissioner Paul Searancke was pleased to see that so many MNZ clubs and event organisers are wishing to be involved in the process and that most were operating along very similar protocols at present.

“It’s great to see that we have such an experienced group involved and all wishing to move forward in the same direction” he commented.
